**AB1600: DEVELOPMENT IMPACT FEE ANNUAL REPORT & FIVE-YEAR FINDINGS REPORT**

Fiscal Year 2024-2025

**SUMMARY:**

Public Facilities Fees are charged by local government agencies in connection with approval of development projects. The purpose of these fees is to defray all or a portion of the cost of public facilities related to the development project. The fees imposed on new development are based on the Public Facility Financing Plan Fee Justification Study for the City of Ripon report that includes a detailed study of the impacts of future growth on local facilities. This report was updated by Goodwin Consulting Group on March 1, 2017 and adopted by the City Council on March 14, 2017. In 2021, Goodwin Consulting Group updated the Corporation Yard Fee account and determined an increase was needed, which was approved by the City Council in June 2021.

A separate fund for each fee category has been established to account for the revenue collected and the expenses incurred related to each category. A description of each of these fees is noted below:

- Corporation Yard Fee - This fee is charged to pay for necessary facilities at the corporation yard that is needed to support new growth.
- Library Fee - This fee is charged to pay for expansion and improvements to the library that is needed to support new growth.
- Parks Fee - This fee is charged so that the parks system can be expanded or improved as new growth is added to the city.
- Police Fee - This fee is charged to pay for needed expansion to the police station that is needed to support new growth.
- City Hall Fee - This fee is charged to pay for needed expansion to city hall that is needed to support new growth.
- Refuse Fee - This fee is charged to purchase new refuse equipment necessary to support new growth.
- Storm Drain Fee - This fee is charged to provide for facilities necessary to handle storm water runoff to support new growth.
- Transportation Fee - This fee is charged to provide for necessary improvements to the transportation system that are needed to support new growth.
- Wastewater Fee - This fee is charged to provide for expansion of the sewer system to support new growth.
- Water Fee - This fee is charged to pay for expansion of the water system that is necessary to support new growth.

## **ANNUAL REPORTING LEGAL REQUIREMENTS FOR DEVELOPMENT IMPACT FEES:**

California Government Code Section 66006 (b) defines the specific reporting requirements for local agencies that impose AB1600 Development Impact Fees on new development. For each separate fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- A. A brief description of the type of fee in the account or fund.
- B. The amount of the fee.
- C. The beginning and ending balance of each account or fund.
- D. The amount of the fees collected and the interest earned.
- E. An identification of each public improvement of which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- F.
  - i. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing of an incomplete public improvement, as identified in paragraph (2) of subdivision (a) of Section 66001, and the public improvement remains incomplete.
  - ii. An identification of each public improvement identified in a previous report and whether construction began on the approximate date noted in the previous report.
  - iii. For a project identified for which construction did not commence by the approximate date provided in the previous report, the reason for the delay and a revised approximate date that the local agency will commence construction.
- G. A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
- H. The amount of refunds made, pursuant to subdivision (e) of Section 66001, once determined that sufficient monies have been collected to fund fee-related project.
  - i. For any refunds made, the number of persons or entities identified to receive those funds, and any allocations pursuant to subdivision (f) of Section 66001.

Attachment 1 is intended to satisfy the annual reporting requirements for Fiscal Year 2024-25.

## **FIVE-YEAR REPORTING LEGAL REQUIREMENTS FOR DEVELOPMENT IMPACT FEES:**

California Government Code Section 66001 (d) requires that for the fifth year following the first deposit into the AB1600 Development Impact Fee account or fund, and every five years thereafter, the local agency shall make findings with respect to any remaining funds in the fee account, regardless of whether those funds are committed or uncommitted. The City last completed the five-year reporting requirements along with the AB1600 report for the fiscal year ending June 30, 2024.

**PUBLIC REVIEW:**

This report will be made available for public review and presented at the next regularly scheduled public meeting no less than 15 days after this information is made available to the public.
