2025 Large Item Pick-up Program

The City of Ripon offers a service for residential customers to conveniently dispose of **LARGE** household items during the months of **April—September**. Residential customers are offered one complimentary, scheduled pick up during this period. Please schedule early, as pick up dates are limited. If you have items to dispose of, please carefully read the following procedures and regulations.

- This is a **one-time scheduled service** per year for **residential utility customers only**. Items will only be picked up if you are scheduled and have a confirmation number.
- There is a limit of **four (4) LARGE items** per household. Items that are small enough to fit in garbage can will not be picked up.
- Items must be placed on the street in front of the curb in a manner that does not obstruct the path of travel of vehicles and pedestrians. No alley or private street pick-up. If your scheduled pick-up date falls on your regular garbage day, please keep your can(s) 5-10 feet away from items.
- Items **must be out by 7:00 am** on your scheduled day, but no earlier than the day before. **Items that are not out on time will not be rescheduled**. Items not picked up or rejected (unacceptable items, too many items, too late, etc.) must be removed from the street by the following day.

TO SCHEDULE YOUR PICK UP: VISIT cityofripon.org, click the “Garbage Services” button, then click “Large Item Pick-up Program” or scan the QR code and fill out the online form. You will receive your pick-up date and confirmation number via e-mail within 2 business days. **OR COME IN PERSON** to the Public Works Department, fill out the Large Item Pick-up form and receive your pick-up date and confirmation number.
